## Education

**Thaddeus Stevens College Of Technology**

*Associates of Computer Software Engineering Technology*

**Sep. 2024 – May 2026**

*Lancaster, Pennsylvania*

## Relevant Coursework

- Data Structures
- Software Project 1
- AP Computer Science
- Computer Architecture
- Technical Requirements
- Web Development 1
- Database Design
- Security Ethics

## Technical Skills

**Languages:** Python, Java, HTML/CSS, JavaScript, MySQL

**Developer Tools:** VS Code, Eclipse, IntelliJ

**Technologies/Frameworks:** GitHub, Flask

## Projects

**Kouzína Charás** | *HTML, CSS, JavaScript*

- Developed a fully functional restaurant website featuring online menu, delivery, and pick-up options.
- Implemented local storage for data persistence, enabling user preferences and order tracking.
- Collaborated with a partner over one month, enhancing skills in web development, debugging, and responsiveness.
- Gained hands-on experience in creating a dynamic user experience with modern web technologies.

**WebStore** | *HTML, CSS, JavaScript*

- Developed a practice web store to enhance skills in DOM manipulation and cart functionality.
- Allowed users to add items to a cart, update quantities, and view real-time total costs.
- Focused on responsive design and smooth user interaction through CSS and JavaScript integration.

**WebClone** | *HTML, CSS*

- Created a clone of a web application using advanced HTML and CSS techniques.
- Focused on replicating responsive design, precise layout, and animations to match the original site.
- Gained experience in adhering to modern web standards for design and structure.
